Star Track SRT 2016 Decoder - Installation Instructions:

1. Connect the decoder to the TV by using the "DV-OUT" connector or the red/white/yellow RCA connectors
2. Connect the cable from the satellite dish to the "LNB IN" connector
3. Connect the power cable to an 220v outlet
4. Switch on the decoder at the back next to the power cable

PLEASE NOTE - All channels should be working as this decoder was scanned and tested and ALL channels were saved.

**NB!!!!!! - ONLY follow the steps below if the following message is displayed:
"NO SIGNAL"**

On the remote control:

1. Press "MENU" (Middle Left)
2. **Use right arrow once to move to "Utility" menu**
3. **Use down arrow once to select "Factory Reset" and press "OK"**
4. **Enter the following password – 0000 – and press "OK"**
5. **Use left arrow once to return to "Installation" menu**
6. Press "OK" on "Antenna Setting"
7. On the top line called "Satellite", use the right arrow and change "(1/84) Intelsat 7/10K" to "(7/84) Intelsat 7/10K"
8. Use the down arrow and move to the last line labelled "Start Search"
9. On this last line use the right arrow to change "Satellite" to "Blind"
10. Press OK
11. Use the up arrow and move to the line called "FTA Only"
12. Use the right arrow to change "NO" to "YES"
13. Press "OK"
14. The decoder will scan for about 5-10 minutes
15. Press "OK" to Save all channels and then "EXIT" until back to normal TV screen.

If some of the channels should change frequency after the initial install, just do the steps above again to find the channels on their new frequency, **BUT SKIP STEPS 2 – 5 marked in red.** The channels on the new frequencies will be added to the bottom of the list
